Speakers SVEN PS-750, 80W Bluetooth (black)

Planning a house party? Or maybe you're heading to a friends' barbecue? The SVEN PS-750 speaker will provide you with clear, crisp sound and an output power of up to 80W! It supports multiple connection methods, including cable and Bluetooth. It also allows you to connect 2 microphones (not included), making it great for karaoke parties. The device also features a built-in FM receiver, and its operation is made easier with the included remote control. Its additional advantage is dynamic backlighting - now you can effortlessly liven up any party!

Play Music from Various Sources

Connect your phone to the speaker and easily switch songs, play audiobooks, and more - Bluetooth technology provides you with fast, stable transmission up to 10 meters away. This gives you the desired freedom! You can also play music from microSD cards and USB drives. The package also includes an audio cable, allowing you to easily connect devices like smartphones or laptops to the speaker.

Dynamic Backlighting

Create an amazing atmosphere at your next party. The speaker is equipped with dynamic colorful backlighting, the style of which you can customize to your preferences - simply choose one of the available modes. Moreover, the light is bright and vivid enough to look fantastic both at night and during the day. Have fun on the dance floor and enjoy a fantastic ambiance!

High Sound Quality

You'll liven up every party with the SVEN speaker. The device stands out with an output power (RMS) of up to 80W and is equipped with 32mm high-frequency drivers and 145mm mid-to-low-frequency drivers. This allows you to enjoy clear audio and excellent harmony! There's also an option to connect 2 speakers to achieve high-quality stereo sound and a combined power of up to 160W. An equalizer is also available, allowing you to adjust the sound to your expectations. Note: models produced before 04.2021 only connect with models produced before 04.2021, and newer models only connect with newer models.

Designed for Karaoke Parties

Are you hanging out with friends, you've already listened to music, and now you want to sing a bit? No problem - the speaker allows you to connect 2 microphones. So, you can showcase your vocal skills solo or invite someone for a duet! You also have the ability to adjust the level of your voice and apply a special echo effect that will make you sound even better. The speaker also features special microphone holders, making it much easier to store and transport them.

Built-in FM Receiver

You can also listen to your favorite radio stations using the speaker. The PS-750 model has a built-in FM receiver, and the included cable serves as an antenna. Enjoy music even when you don't have a music source at hand! Just set the desired frequency and tune in to your chosen station.

Simple and Convenient Operation

The speaker is equipped with an easy-to-use panel with buttons that allow you to switch songs, choose the audio source, change the lighting mode, or set the radio frequency, for example. All the necessary information can be found on the built-in LED display. The package also includes a compact remote control that enables remote operation of the device.

Refined in Every Detail

Don't worry about the speaker running out of power too quickly and spoiling the fun at your party. The device has a working time of up to 10 hours - so you can party until dawn! Has the gathering extended a bit? Connect the speaker to a power bank, which can be placed in a specially designed compartment! The PS-750 model is also very convenient for transport - its carrying is made easier by the practical handle.
