

Speaker SVEN SPS-710, 40W Bluetooth (black)

Speaker SVEN SPS-710, 40W Bluetooth (black)

Ref: 6438162018009

Speaker SVEN SPS-710, 40W Bluetooth (black)

Enjoy fantastic sound quality. SVEN SPS-710 speakers stand out with an output power of up to 40W and support multiple connection methods - including Bluetooth. You can also connect headphones to them. They have a built-in FM receiver and an alarm clock function, and their black wooden enclosures (MDF) give them a stylish, classic character. Convenient device control is provided by a special control panel, and a remote control is included in the set.

Various Connection Options

Connect your speakers the way you want. The SPS-710 model supports wireless Bluetooth connection, which provides a range of up to 10 m and stable, reliable transmission. This allows you to freely switch songs or play audiobooks with just a few clicks on your phone! The speakers are also compatible with SD cards and USB drives. You also have the option to connect selected devices to them using a cable.

Listen to the Radio Comfortably

Want to listen to your favorite radio station? Or perhaps you don't have a music source at hand? No problem - the speakers have a built-in FM receiver. Just set the desired frequency, and you can listen to music, news, or interesting programs whenever you want!

Sleep Peacefully

Fall asleep to your favorite songs. The speakers offer a special SLEEP mode, which allows them to turn off with a delay. Simply play your chosen tracks and go to sleep! The SPS-710 model also has an alarm clock function. Wake up to the rhythm of songs saved on an SD card or USB drive and start each day with a bang! Additionally, the speakers allow you to connect headphones, so you can listen to music at night without disturbing other household members.

Convenient Control

Take control of the sound. The speakers are equipped with a special control panel that allows you to adjust the volume, high and low tones, switch songs, set the radio frequency, and more. The built-in display is also noteworthy, providing convenient access to essential information - from the operating mode to the current time. The set also includes a handy remote control for remote speaker operation.

Great Sound Quality

Discover your favorite songs in even better quality. The speakers are equipped with a 25mm high-frequency driver, a 100mm low-frequency driver, and a bass reflex. Their output power (RMS) reaches 40W, and the frequency response is 40 Hz - 22 kHz. All of this contributes to a clean, natural sound, excellent harmony, and rich details. SVEN SPS-710 speakers will provide you with an unforgettable musical experience!

Enhanced Design

The speakers are equipped with a black enclosure made of MDF board. This makes them look great and can wonderfully complement any arrangement. They weigh about 5.4 kg, which means that you can easily move them if needed. The speakers are not too large either - their dimensions are 170 x 274 x 195 mm. You can easily place them on a table, shelf, or cabinet!
