SVEN SPS-606 6W speakers (black)

SVEN SPS-606 speakers are distinguished not only by their aesthetic appearance, but most importantly by their excellent sound. Made of wooden MDF housing, the speakers provide clear and deep sound that will satisfy even the most demanding tastes. They offer 6 watts of power and a wide frequency response, as well as hassle-free operation thanks to their carefully considered design.

Rich sound

The speakers' output power is 6 watts (2 × 3 watts), allowing for dynamic and emotional playback of your favorite music, movies or podcasts. With a frequency range of 70 - 20,000 Hz, the SVEN SPS-606 speakers perfectly reproduce both low bass and clear treble, allowing you to enjoy high-quality sound. What's more, the speakers offer magnetic shielding, which means you don't have to worry about interference or distortion.

Thoughtful design

Practicality of use is equally important, which is why the SVEN SPS-606 speakers are equipped with functional features. A rotary volume control knob on the front panel allows you to adjust the sound to your preference, and a power switch on the front panel ensures convenient operation, allowing you to quickly turn the speakers on and off as needed.

#### Wide compatibility

The impedance of the SVEN SPS-606 speakers is 4 Ohms, making them optimally suited for use with a variety of audio devices such as computers, TVs, smartphones and music players. The optimal impedance allows for efficient transmission of the audio signal and ensures clear and crisp sound without distortion, regardless of the chosen music source.

#### Built-in headphone jack

The speakers were created with freedom of use in mind, so they are equipped with a convenient headphone jack. This is a great solution that comes in handy when you need to cut off from your surroundings and listen to a webinar in peace, or vice versa - when your household members need silence and you don't want to disturb them by listening to an album by your favorite artist.

#### Elegant design

The size of the speakers (87 × 142 × 85 mm) makes them fit perfectly on a desk, dresser or shelf. The black color scheme of the speakers matches both modern and classic settings, so the SPS-606 will add elegance to any interior.
