

Wireless Charging Stand Nillkin (Mystic Silver)

Wireless Charging Stand Nillkin (Mystic Silver)

Ref: 6902048226579

Nillkin Wireless Charging Stand (Silver)

The Nillkin wireless charging stand is a practical product with a modern look that allows you to conveniently set your phone at any angle while charging, so you can comfortably conduct video calls, business meetings, or watch content online. You can place the phone on the stand both horizontally and vertically, enhancing usability. The charging stand supports MagSafe, making iPhone charging delightfully straightforward. Designed in a droplet shape and made from tempered glass and aluminum with a matte finish, this stand boasts exceptional elegance. The materials used are durable and easy to clean, so you can enjoy this practical device for as long as possible.

Strong Attraction

With your devices in mind, a strong rubidium magnet has been built into the stand, with enough strength to hold 4 iPhone 12 Pro phones. You can rest assured about your phone - it will be firmly attached to the stand whether you set it vertically, horizontally, or at a more or less sharp angle.

Fast Charging

The Nillkin charging stand provides a charging power of 7.5W to quickly replenish your device's energy. The 46 ventilation holes at the back and the separation of the printed circuit board and coil ensure effective heat dissipation.

Thoughtful Design

Designed in a droplet shape, the compact Nillkin charging stand features a thoughtful design that not only allows you to set your phone at any angle and charge it simultaneously but also enables photo taking. The shape and design of the stand attach the phone only by its central part to avoid scratching the cameras on the phone and allow for taking photos. Moreover, the charger has rounded edges and non-slip stickers to ensure stability and safety.

Multi-Aspect Protection

The device is equipped with a FOD (Foreign Object Detection) feature that increases the safety of using the charger. When it detects that any foreign element, e.g., keys, is attached to it, it automatically turns off to avoid the risk of overheating or overload. The charger also has protections against overvoltage, short circuit, and too high voltage. The light indicator placed in front of the charging panel will inform you when the charger is on and when it is charging.

Easy to Transport

Thanks to its compact dimensions and weight, as well as its foldable design, the stand is very easy to transport - it will fit into a briefcase, backpack, or even a small bag.

Package Contents

- Charger x 1
- USB-C Cable x 1
- Manual x 1

Brand Nillkin
Model NKT11
Color Silver
Power15W
MagSafe SupportYes
MaterialAluminum alloy, plastic, tempered glass
