Earphones TWS EarFun Air Pro 3, ANC (Blue)

Rediscover your favorite songs with the TWS EarFun Air Pro 3. These headphones support the Qualcomm aptX Adaptive codec and are equipped with 11mm titanium drivers that deliver fantastic sound quality. They utilize ANC Quiet Smart 2.0 technology and the cVc 8.0 noise reduction system, allowing you to listen to music and have phone conversations even in noisy environments. They also feature built-in microphones, while Bluetooth 5.3 ensures reliable and lightning-fast signal transmission. The ergonomic design of the headphones guarantees dreamy comfort of use, and the touch panels make them easy to operate.

#### Hear Every Detail

Fall in love with music again with the Air Pro 3. These headphones are fitted with 11mm titanium drivers, ensuring high sound quality. Therefore, you can enjoy crystal-clear and richly detailed sound, as well as deep and powerful bass. Now, you can feel like you're at a concert anywhere!

#### Immerse Yourself in Music

Forget about annoying noise and enhance your music listening pleasure! The Air Pro 3 model uses hybrid ANC Quiet Smart 2.0 noise reduction, which reliably silences external sounds up to 43 dB. Therefore, you can listen to your favorite playlist undisturbed, regardless of your location - nothing will get in your way now!

#### Designed for Calls

Now you can have phone conversations even in exceptionally noisy places! Each earbud has as many as 3 built-in microphones that will easily pick up every word you say. They also support the advanced cVc 8.0 noise reduction system, filtering all unwanted ambient sounds. You can be sure that your interlocutors will hear everything you have to say.

#### Reliable Connection

Say goodbye to disruptions and enjoy a stable wireless connection. Air Pro 3 uses innovative Bluetooth 5.3 technology, ensuring fast and stable connection with the selected device, with lower energy consumption. Moreover, you can connect them to 2 devices at the same time.

#### Up to 45 Hours of Operation

Listen to music without limitations. The built-in battery can provide up to 9 hours of uninterrupted operation. Furthermore, you can extend this time by a whopping 36 hours using the case included in the set. It also supports quick charging, so around 10 minutes is enough for you to play music for another 90 minutes. You can charge the charging case both via the USB-C cable (included) and wirelessly.

#### With Comfort in Mind

EarFun has designed the headphones to provide users with maximum comfort. Air Pro 3 perfectly adapts to the shape of the ear and does not cause discomfort even during many hours of music listening. The set also includes 4 pairs of interchangeable ear tips in different sizes, allowing you to adjust them even better to your needs. They are also IPX5 water-resistant, so they're not afraid of raindrops or sweat, and the built-in touch panels ensure convenient operation.

#### Dedicated App

Want to gain additional capabilities? Or maybe you care about personalizing the headphones? Install the dedicated EarFun Audio app - available in both Google Play and App Store. With it, you'll get access to EQ settings, check the battery charge level, and can change the functions of the touch panels.
