Earphones TWS OneOdio OpenRock S (cream)

Take your favorite music with you during your workout with the OneOdio OpenRock 2. These earphones feature an open design that provides unmatched stability, making them perfect for activities like running. The dynamic 16.2-millimeter drivers deliver deep bass, and the built-in microphones reduce ambient noise, allowing you to have phone conversations with ease. Additionally, they can work for up to 60 hours with the charging case. Charging them takes only about 1.5 hours.

### Perfect for Active Lifestyles

Do you enjoy listening to music during your workouts? OneOdio OpenRock S is your perfect companion. With an open design, they won't cause discomfort during extended use and are great for situations where you need to be aware of your surroundings. The skin-friendly silicone ear hooks ensure they stay in place, and they are also water and sweat-resistant with an IPX5 rating, so you can use them worry-free.

### High-Quality Sound

Immerse yourself in the world of music with OpenRock S. These earphones utilize TubeBass technology for rich bass tones. Furthermore, they are equipped with 16.2mm dynamic drivers. An advanced audio algorithm dynamically adjusts low and high tones for the best sound quality. The refined construction also minimizes sound leakage. You can choose between 2 modes: Rock and Relax to tailor their

performance to your needs.

#### Up to 60 Hours of Playback

No need to worry about your earphones running out of battery too quickly. OneOdio OpenRock S can play music for up to 19 hours on a single charge. With the charging case, the total usage time extends to 60 hours. It takes approximately 1.5 hours to fully charge them. You can also enjoy 1 hour of music with just a 5-minute charge.

#### Noise-Reduction Microphones

Have conversations with loved ones during your workout, walk, or other activities. OneOdio OpenRock S earphones feature 4 microphones that use AI-based noise reduction to suppress external sounds. This ensures clear and loud phone conversations, giving you peace of mind that your caller can hear you clearly.

#### Simple and Intuitive Controls

Now, you don't need to reach for your smartphone to answer calls or skip tracks. With touch-sensitive panels, you can pause/resume playback, activate voice assistant, reject/end incoming calls, and select Rock or Relax mode. Enjoy the convenience that OpenRock S offers!
