1MORE Wireless Headphones, ANC SonoFlow SE (black)

The 1MORE SonoFlow SE wireless headphones feature 40-millimeter dynamic DLC drivers that deliver richly detailed and deep, clear sound. Thanks to QuietMax™ hybrid noise cancellation technology and the use of artificial intelligence, you'll be able to carry on phone conversations with loved ones at ease. Transparency mode will also be at your disposal. The headphones allow up to 70 hours of uninterrupted playback and support fast charging. They also offer 12 Equalizer settings, while soft ear cups and an adjustable headband guarantee comfort. In addition, Bluetooth 5.0 provides reliable transmission over distances of up to 10 meters, and practical buttons allow intuitive operation.

High-quality drivers

The SonoFlow SE headphones feature innovative DLC diaphragm drivers and a flexible PET diaphragm. Thanks to this unique combination, you will experience an unforgettable sound experience. The DLC diaphragm provides detail-filled sound with crystal clarity, while the PET diaphragm guarantees powerful bass that will enhance any musical composition. Ready to rediscover music with 1MORE?

Noise reduction and Transparency mode

With advanced QuietMax™ noise cancellation, 1MORE headphones deliver unparalleled sound quality. This patented technology effectively reduces background noise, allowing you to concentrate fully on your music. Whether you're working in the office, walking

outdoors or traveling on the subway, the SonoFlow SE model allows you to focus completely on the audio. Forget about annoying noises from the wind, appliances, vehicles or conversations of people nearby! However, if you want to stay in touch with your surroundings and hear what's going on around you, you can use Transparency mode.

Customizable EQ settings in the app

Customize the sound to your liking. The 1MORE MUSIC app provides access to 12 professionally-tuned Equalizer settings, including Hip-Hop, Acoustic, Podcast, Electronic, Default Mode, Classical, Pop, Vocal Booster, Deep, Bass Booster, Lounge and Bass Reducer. Choose your favorite setting and let the SonoFlow SE headphones bring out the best in every song!

Up to 70 hours with your favorite sounds

The SonoFlow SE allows for up to 70 hours of continuous playback (when not using ANC mode) or 50 hours (when ANC mode is on). So you can enjoy the sound of your favorite tunes without any distractions - even on long trips. What's more, thanks to the fast-charging feature, just 5 minutes of renewed power is enough to keep the headphones running for another 5 hours. The time it takes to fully charge them is 80 minutes.

Perfect for making calls

The use of artificial intelligence has made it possible to guarantee clear conversations in almost any situation. The 1MORE headphones accurately record and amplify the voice while eliminating background noise. As a result, the person you are talking to will hear every word you say, even in noisy environments. Enjoy communication without interference!

Dreamlike comfort

The SonoFlow SE headphones provide exceptional user comfort. The soft earcups are made of protein leather, and the adjustable padded headband perfectly adapts to the shape of your head. In addition, the weight of the product does not exceed 240 g, so you can listen to music for a long time without feeling uncomfortable. At your disposal will also be practical buttons, with which you can, among other things, turn the device on or off, manage phone calls or adjust the volume level. Moreover, thanks to the Bluetooth 5.0 wireless connection, you can enjoy stable transmission at a distance of up to 10 meters. All for your convenience!
