SmartWatch HiFuture FutureFit Ultra 2 Pro (gray)

HiFuture FutureFit Ultra 2 Pro smartwatch (gray)

FutureFit Ultra 2 Pro is a smartwatch that will take you to a new level of activity. It will provide you with information that is key to improving your well-being and fitness. The device measures oxygen saturation in your blood, tracks your sleep cycles and records your steps and calories burned. In addition, it allows you to make wireless calls, giving you even more freedom. It will also be your personal assistant, allowing you to set reminders and deliver notifications from your phone - all for 7 days without charging. Want a watch that reflects your current mood? You can set a new color dial pattern every day on the 1.78-inch screen.

A modern approach to technology

The smartwatch will delight you with its 1.78-inch AMOLED screen, which offers vivid and intense colors and amazing image sharpness at 368 x 448 resolution. You can choose from more than 100 color dials to personalize the look of the device. Tempered glass combined with an anti-fingerprint coating protects the screen and maintains its aesthetic appearance on a daily basis. All this makes operating the device a pleasure.

Support throughout the week

Equipped with a 300mAh battery, the FutureFit Ultra 2 Pro will not let you down during long days. A single charge provides up to 7 days of use, and the magnetic charging system ensures convenient and easy energy replenishment. The entire process only takes about 30

minutes, so you don't have to waste time waiting.

Compatible and maximally functional

The wireless connection on the FutureFit Ultra 2 Pro is reliable. It doesn't matter if you're an Android or iOS user - the HiFuture smartwatch is compatible with Android 7.0, IOS 12.0 and newer operating systems, putting access to smart features at your fingertips.

You won't miss a message

The FutureFit Ultra 2 Pro connects to your smartphone of choice wirelessly and allows you to save 10 contacts to help you make quick calls. With just a click, you can call a loved one and enjoy a conversation without interruptions or having to take out your phone. And what if you can't answer? Send a short text message using the smartwatch and let your loved ones know you're busy.

Reliable in all conditions

No matter what you're doing, FutureFit Ultra 2 Pro can accompany you in it. Thanks to its waterproof design (IP68), it's resistant to contact with water in any form, so you can take it for a jog in the rain or a workout at the pool without a hitch. The device is also designed to withstand extreme temperatures (from -10°C to 50°C). Don't slow down - this smartwatch will keep up with you!

Your personal trainer

If you workout, the FutureFit Ultra 2 Pro will help you improve your performance! The device measures your steps and the number of calories burned. This allows you to set goals and achieve better results every day. It's an effective motivation to keep you fit, healthy and feeling great.

Measurements of vital functions

Health is the most important thing, and FutureFit Ultra 2 Pro helps you keep it under control. The smartwatch monitors your heart rate, blood oxygen saturation and sleep quality 24/7. This gives you a simple tool with which to improve your daily habits and take care of your body.

Reminders for important things

Are you working on a new routine? Or do you have an important task to complete? You can do without sticky notes. Set a reminder and FutureFit Ultra 2 Pro will give you a signal at the right moment. That way you'll never forget important things again!
