# Mechanical Gaming Keyboard Havit KB890L RGB

Mechanical Gaming Keyboard Havit KB890L RGB

Havit KB890 RGB mechanical gaming keyboard.

Havit KB890 is a mechanical gaming keyboard that reads multiple simultaneous clicks with ease. It stands out with its 87 keys, compact form factor and dynamic backlighting that will give your night games a fantastic touch.

### Choose your favorite colors

KB890 can light up with your favorite lights! You can not only set the backlight mode, but also its brightness using the Fn key combination.

#### Compact form

The keyboard has a compact form without side numeric keys, which is ideal for those who do not use it. The advantage of this solution is that the mouse can be closer to the keyboard which minimizes movements and saves time. This is especially important for gamers because it saves time.

## Reading

Reading signals sent by clicking several keys at once? No problem! The Havit KB890 keyboard will read all your commands so you can move smoothly through the game world and score more points!

Mobilemax - Gadgets and Accessories Rua Vasco da Gama n61, 8005-411, Estoi - Faro, Portugal (Continente) Telefone: +351962484153 (Chamada para rede móvel nacional) Email: info@mobilemax.pt

### Windows key lock

The FN WIN key configuration locks the WIN key function, preventing you from accidentally exiting the game. Nothing is more frustrating than having the game interrupted when victory is at hand - especially when HP is already heavily depleted.
