TWS Dudao U4N wireless headphones, Bluetooth (white)

If you are looking for headphones that provide not only excellent sound quality, but also exceptional comfort and reliability, then Dudao wireless headphones are just for you. These headphones will surprise you with their capabilities! With them, you will take your musical experience to another level, and what's more, you will be able to carry on casual conversations. See what Dudao has prepared for you!

Latest Bluetooth technology

With advanced Bluetooth 5.3 technology, Dudao headphones provide a reliable and fast wireless connection. Now you can enjoy your favorite music without cumbersome cables within a range of up to 10 meters from the sound source.

Long runtime

Dudao headphones offer an amazing runtime - up to 10 hours. Now you can listen to sound all day long without the need for frequent charging. What's more, the headphones can last up to 90 days in standby mode, which means they'll be ready whenever you need them! All this makes them the perfect companion even on long trips.

Durable battery

The Dudao headphones have a built-in 30mAh battery that guarantees a long battery life. In addition, the charging case comes with a

200mAh battery, allowing you to charge the headphones multiple times without plugging them in. Enjoy the comfort of use with Dudao!

Excellent sound quality

With a 10mm speaker and 32ohm impedance, the Dudao headphones deliver excellent sound quality. Enjoy clear and crisp sound of your favorite music and podcasts. What's more, they are equipped with a microphone, so you can make casual phone calls and free your hands!
