Nextool multifunctional opener NE20231

Don't want to waste space in your travel backpack for heavy tools? Today you can forget about them and have all the most necessary equipment clipped to your keys as a key ring. With the multifunctional Nextool opener you can easily perform everyday tasks like opening bottles, unscrewing small screws or opening packages. From today you will always have everything at hand!

Many functions in a small tool

Despite its small size, the Nextool opener is a multifunctional tool that will help you in everyday tasks. You will find in it, among other things, a knife for opening packages, a bottle opener or a screwdriver. You can easily sharpen a pencil with it and remove the smallest screws. In addition, it can become a key ring, so you will always have the most necessary tools with you.

Comfort of use

The Nextool multi-functional opener is a lightweight tool, weighing only 16.1 grams, which you can fit on one hand, as folded it measures only 61 mm in length. This makes it very comfortable to use. Do you want to always have it with you? Nothing simpler than that! Just attach it to your keys and you will always be prepared for any occasion.

Security

The Nextool is also a guarantee of security. You no longer have to worry about damaging your parcel when opening it. The head of the parcel opening knife has been rounded to protect the contents. What's more, more comfortable and safer use of the tools will be possible thanks to a special lock. Have you had a car accident and can't get out of the belts? With the help of a special blade you will cut them without any problems. From today you will always be protected.

Excellent quality

The Nextool multifunctional opener was made of the highest quality materials. The handle was created from 20Cr13 metal alloy, while the blade was made from 12C27. This guarantees the durability and strength of the tool. In addition, you can already forget about glue or tape residue on the knife when opening boxes. The blade has been coated with Teflon to avoid such situations, making it even more convenient to use.
