3-slot charger box Telesin for GoPro Hero 11 / Hero 10 / He

Telesin GP-BCG-901 charger for GoPro Hero 11 / Hero 10 / Hero 9 batteries

The Telesin 3-in-1 charger allows you to quickly charge up to 3 GoPro Hero batteries simultaneously. Lightweight and compact - you can always have it on hand. Its complex security system makes it's using risk-free. What's more, the built-in LED indicators provide real-time information about the charging status. As an added bonus, the charger has a silicon compartment to store up to 2 TF memory cards.

Fast battery charging

The product supports 2.4A fast charging. This means it can charge 3 batteries for GoPro Hero 11 / Hero 10 / Hero 9 in just 2.5 hours. The charger is equipped with a USB-C port, making it incredibly versatile - you don't need additional adapters to use it.

Don't worry about the safety of your equipment

A special protection system protects the charger and batteries from damage. Devices are not threatened by overcharging, overloading, overvoltage, short circuit or too high temperature. A special, flame-resistant shell increases the safety of using the equipment.

Easy access to key information

Built-in LEDs make the charger easy to use, providing you with real-time information about the charging status. For example, green color indicates that it has completed charging and yellow color indicates that the battery is almost charged. Blue color indicates that the

charger has entered standby mode, and red color indicates that charging is in progress.

#### Practical design

The device is pleasant to the touch, handy and comfortable to use. It weighs only 68.31 g, so it will not weigh down your handbag, suitcase or backpack. You can easily pack it up and take it with you wherever you need it - outdoors, on vacation with friends or on a long journey. Non-slip silicone pads allow you to stable the charger on any surface. The lid of the device is equipped with a magnetic closure.
