Ref: 0600358066569

Smart Wi-Fi LED Bulb MSL120EU Meross (Non-HomeKit)

Meross MSL120EU Smart LED Light Bulb (Non-HomeKit)

Enjoy convenient remote control of your lighting and create a unique atmosphere for any occasion. The Meross MSL120 smart LED bulb allows you to freely adjust the brightness, color temperature and even the color of the light and is extremely energy efficient. You can conveniently control it remotely using the Meross app. It is also compatible with Apple HomeKit, Amazon Alexa and Google Assistant, among others, so you can also control it with your voice.

Remote lighting operation

Have you ever forgotten to turn off the lights before leaving the house? Now it's not a problem anymore - you can turn off the light bulb at any time using your smartphone! The Meross app lets you control the device from anywhere - at work, in a restaurant, or even on vacation abroad. Now everything you need is at your fingertips! The product also works with Samsung SmartThings, Amazon Alexa, Google Assistant and Line Clova.

Intelligent home adapted to your lifestyle

No longer do you have to turn off the light yourself when you leave for work or turn it on when you return. Meross smart LED bulb will adapt to you! How does it work? All you have to do is set a schedule. Make the lights automatically turn on at 7:00 when you get up and turn off at 8:00 when you go to work. Usually get home around 5 p.m.? Set the lights to light up to greet you! The possibilities are almost

endless.

Get the right atmosphere in your home

Did you know that with the color and intensity of lighting we can fantastically emphasize the character of the chosen occasion, and even affect our mood? Meross will allow you to conveniently take advantage of such opportunities! LED bulb allows you to choose the brightness and color temperature of lighting, and even its color! A wide range of RGB colors makes it easy to find the perfect shade for yourself. So you can easily create the perfect atmosphere during a romantic dinner, movie night or house party!

A few words will suffice

Don't feel like getting out of bed to turn off the light? Your hands are busy cooking and you need to turn on the light? Now it's not a problem anymore! The Meross MSL120 LED light bulb is compatible with Siri, Google Assistant and Amazon Alexa voice assistants. This means you can conveniently operate it with your voice. Simply issue the appropriate command and watch the light turn on, off, brighten, or turn blue.

Easy to install and energy efficient

Choose ecological, yet economical solutions. The bulb consumes extremely little power - in comparison to similar models it saves up to 78,3% of energy. Its installation and configuration will not even cause you the slightest problem. For proper operation of the device you only need the existing Wi-Fi connection in your home - no need to buy any additional hubs. With Meross you can say goodbye to high electricity bills and save money!
