ONIKUMA X15Pro gaming earphones

Enter the world of gaming with the Onikuma X15 Pro earphones! With powerful 50mm drivers, you will experience sound that will make you feel like a real gaming hero. The omni-directional microphone allows you to comfortably communicate with other gamers, and the ergonomic design will give you the comfort you dream of during long games. With USB and 3.5mm audio interfaces, they are compatible with a variety of devices, giving you the freedom to choose your audio source.

Immerse yourself in sound

The Onikuma earphones feature powerful 50mm drivers for unparalleled sound quality. Thanks to stereo surround technology, you will feel as if you are literally in the middle of the action. From now on, you will easily hear the footsteps of approaching enemies, the noise of the wind or gunshots with incredible precision, giving you an even greater advantage over other players.

Stay in touch with others

Now you can communicate freely with your team, coordinate effectively and enjoy excellent sound quality. The omni-directional microphone will make your messages clear and understandable. With a microphone sensitivity of $-38 \pm 3\text{dB}$, your voice will be accurately captured, whether you're chatting with your team or streaming a game.

Unparalleled comfort during gameplay

The Onikuma X15 Pro are designed to provide you with maximum gameplay enjoyment. Equipped with soft earcups made of breathable material, they won't make you feel tired even during long hours of gaming sessions. They perfectly fit the shape of your head, effectively isolating you from your surroundings and providing incredible wearing comfort. What's more, the dynamic LED backlighting gives the X15 Pro earphones a unique gaming touch.
