Set of 6 filters MCUV+CPL+ND4+ND8+ND16+ND32 Sunnylife for DJ

Sunnylife UV+CPL+ND 4/8/16/32 Filter Set for DJI Mini 3 Pro (MM3-FI419)

This set includes 6 UV+CPL+ND filters, each designed for various shooting conditions. Compatible with the DJI Mini 3 Pro camera, these filters allow you to capture images with vibrant colors and the right light polarization, enhancing your photography capabilities. Create even more stunning shots!

Convenient Handling

The filters are designed for quick and hassle-free installation. Each filter is adjustable, enabling you to achieve your desired level of polarization. You don't need to worry about damaging your equipment during installation.

Exceptional Protection

The durable construction ensures safe and convenient use in almost any conditions. These filters are scratch, oil, and water-resistant, and they come with a special case for added protection.

Lightweight Design and Professional Glass

Utilizing optical glass in production enhances the quality of your photos. Vibrant, unaltered colors are the result when using UV+CPL+ND 4/8/16/32 filters. These filters are also lightweight, so you don't need to worry about adding extra weight to your drone.

ND 4/8/16/32 Filters

ND filters adjust the amount of incoming light, allowing your camera to set the right exposure. They also enhance the color of your photos, making them more vivid and transparent. Try experimenting with long exposure times to achieve stunning effects. When working in bright sunlight, you can reduce exposure time with an ND filter to achieve the desired blur effect.

CPL Filter

Typically used to eliminate harmful non-metallic reflected light and enhance color saturation. It intensifies the blue sky and highlights clouds, making your photos more accurate and vibrant. Most commonly used for glass, water, and underwater photography.

UV Filter

This filter reduces the blue and blue-gray tint caused by ultraviolet radiation. It not only protects your equipment but also works exceptionally well when photographing open spaces such as seas or vast fields.

- Manufacturer
- Sunnylife
- Weight
- Approximately 0.9 g
- Compatibility
- Mini 3 Pro
- Filters
- UV+CPL+ND 4/8/16/32
