

LED Smart Ceiling Light BlitzWill BW-CLT1

LED Smart Ceiling Light BlitzWill BW-CLT1

Ref: 5907489606493

Smart ceiling lamp from Blitzwolf

With 2 modes, the ceiling lamp from Blitzwolf is suitable for any occasion. The voice and app control make it easy to use, and the minimalist design means the device will fit into any interior.

2in1

Depending on the situation, you can choose the operation mode of the device. When you turn on the first mode, BW-CLT1 will fill the room with uniform warm light while you can relax. On the other hand, the RGB mode with 16 million colors to choose from is perfect for parties and meeting friends. You can also set the lamp so that both modes are on simultaneously.

Customize to your needs

The device from Blitzwolf has a color temperature adjustment feature so you can adjust it to your needs. The light is soft and pleasant to the eye and does not cause discomfort. Additionally, you can choose from three colors of white. Warm light is ideal for reading, and neutral color will help with everyday activities. On the other hand, the daylight color will be useful while working, for example, in front of a computer.

Use the app

With the app, you have access to many functions and settings. You can turn the lights on/off, set the brightness or color and much more. The app makes it much easier to use, you don't even have to get up from the couch or be at home, just one touch and you're done. BW-CLT1 is compatible with BlitzWolf, Smart Life and Tuya app.

Voice control

The lamp from also features voice control. To turn the lamp on or off, all you have to do is give a voice command. BW-CLT1 works with Amazon Echo and Google Home.

Even more possibilities

The BW-CLT1 has a number of practical features, for even more convenience. The schedule function allows you to set a personalized schedule for the light to turn on and off at the time you set. In addition, the app allows you to choose the lighting for the situation, for example, at night or during a birthday party. That's not all! Since the app acts as a remote control, you can combine all the lights into groups and control them simultaneously. Additionally, the app remembers your settings so the next time you use the device, it will turn on the previous mode.

Minimalist design

The lamp from stands out for its simplicity and solid workmanship. The acrylic lampshade disperses light evenly and the tight construction prevents insects from falling inside. The shell is resistant to deformation. In addition, the swivel bracket makes mounting the lamp very easy.

Brand

Blitzwolf
