

Bike Mount Acefast D15 (black)

Bike Mount Acefast D15 (black)

Ref: 6974316281382

Acefast D15 bike mount for phone (black)

The Acefast D15 bike mount allows you to comfortably use your smartphone while riding. It is suitable for phones with a screen diagonal of 4.5-6.7 and allows you to adjust the position of the device. What's more, it stands out for its wide compatibility, and you won't have any problems installing it.

Tailored to your needs

The mount allows 360° adjustment, so you can use your phone horizontally or vertically. What's more, it will work well with most smartphone models - you don't even need to remove the case.

Wide compatibility

The product is suitable for vehicles whose steering wheel diameter is between 17 and 33 mm. As a result, you can attach it, for example, to a bicycle (including stationary), motorcycle, scooter, scooter, stroller or even a treadmill.

Thoughtful design

Another advantage of the Acefast D1 is its well-thought-out design. The product is made of stainless steel, which is also water resistant. In addition, the silicone finish protects the smartphone from scratches, and a special lock prevents damage to the equipment. In addition,

the holder does not obstruct the charging port, so you can charge your phone while you ride.
