

Qi 3in1 wireless charger Acefast E9 15W, MagSafe (black)

Ref: 6974316281603

Qi 3in1 wireless charger Acefast E9 15W, MagSafe (black)

Acefast E9 3-in-1 Charger (black)

With the Acefast E9 charger you can charge 3 devices simultaneously. The product works with such equipment as smartphones, smartwatches or TWS headphones. The maximum output power is 45 watts, and strong magnets ensure the stability and safety of your devices. What's more, the charger is equipped with multiple safety features. It also features an LED light, making the E9 stylish.

Stability

The charger is equipped with strong magnets that ensure stability - you don't have to worry about damaging your equipment. You also don't need to remove the case for charging. To start charging, simply attach your smartphone or other device to the magnetic area. Enjoy the modern solutions that Acefast offers.

Wide compatibility

Don't be afraid of compatibility problems! The charger works with devices supporting Qi charging with Android and iOS. With its help you will renew the energy of iPhone 12/13 series, smartwatches 1-7/SE series, as well as iPods 1/3/Pro handsets, Galaxy Buds and many others.

LED light

That's not the end of the Acefast charger's advantages! The E9 is equipped with a built-in LED light, which gives the product a modern touch. It generates eye-pleasing light and doesn't consume too much energy. What's more, you can customize its operation by adjusting the brightness in 3 levels. All you have to do is touch the touch panel located on the base of the charger. You can also turn it off at any time if you don't need it.
