

## Bicycle Controller Holder Sunnylife for DJI RC 2 (ZJ669)

Ref: 5905316148468

Bicycle Controller Holder Sunnylife for DJI RC 2 (ZJ669)

### Sunnylife bike mount for DJI RC 2 controller (ZJ669)

The Sunnylife bike mount is designed for drone and active recreation enthusiasts. It allows you to freely operate the DJI RC 2 controller while cycling, allowing you to enjoy dynamic shots without having to stop. It is made of machined aluminum alloy, which ensures durability and safe use. Thanks to its precision-fit design and sturdy screws, the accessory stably connects to the controller, eliminating the risk of accidental disconnection.

### Robust attachment

The use of aluminum alloy has ensured that the mount is not only elegant in appearance, but more importantly, reliable and long-lasting. The product is also equipped with a soft pad. You will successfully use it while riding a bicycle, scooter or electric two-wheeled vehicle, confident that your device will be held stably in place.

### Multiple application possibilities

Sunnylife's product will prove itself as an independent mount for sports cameras, compatible with the ACTION, GoPro and Insta360 series, among others. So you can enjoy a lot of freedom and use the accessory in different conditions.

### Easy mounting and adjustability

Mounting the mount is quick and hassle-free, and adjusting the recording angle is easy and intuitive. So you can fully focus on the road and your surroundings while documenting your adventure. With a Sunnylife bike product, every ride on will become an unforgettable adventure. Whether you want to capture scenic landscapes or dynamic city scenes - now you can realize any vision with ease!
