Desktop monitor LED light bar Elesense E1132 (black)

Elesense E1132 Monitor Lamp (black)

By opting for the Elesense E1132 monitor lamp, you will gain two sources of light that will make it easier for you to work at your computer without compromising the health of your eyes. Thanks to the ability to adjust the brightness level and adjust the color temperature from 2700K to 6500K, the device will work well in a variety of applications. Its operation is intuitive, and installation is smooth and trouble-free. From now on, you can enjoy optimal lighting while saving space on your desk.

Two light sources

The Elesense monitor lamp offers two light sources that provide both excellent visibility and comfort, making work and entertainment a comfortable experience. The rear illumination is subtle and guarantees a unique atmosphere, highlighting the depth of colors and contrasts on the screen. The asymmetrical front lighting, on the other hand, is carefully designed to highlight the desk and keyboard area. In doing so, it eliminates bothersome glare, creating an ideal environment for concentration and creative work.

Customize the lighting to suit your needs

Ensure optimal conditions while working and entertaining With the ability to adjust the brightness level, you can easily adjust the lighting to any situation while keeping your eyes healthy. You can also change the color temperature from 2700K to 6500K, enjoying both warm and cool light.

Intuitive operation

You will not find it difficult to operate the E1132 lamp. With a single touch, you can switch between front and back lighting. With two touches, you can adjust the color temperature. In addition, turning the dial clockwise will increase the brightness level, and counterclockwise will decrease it. As you can see, care has been taken to provide you with convenience at the highest level!

Save space on your desk

When designing the Elesense monitor lamp, the focus was on efficient use of workspace. Mount the device on top of the screen and enjoy increased productivity and dreamlike comfort while using your computer without sacrificing valuable desk space. In addition, the E1132 comes with an integrated cable and works wired, providing a reliable source of light at all times.
