Memory card Samsung Pro Endurance 32GB + adapter (MB-MJ32KA/

Samsung Pro Endurance 32GB microSD memory card + adapter (MB-MJ32KA/EU)

Looking for a rugged memory card that will stand up to any challenge? Opt for the Samsung Pro Endurance! The product is distinguished by its 32GB capacity and is extremely durable. Even water and extreme temperatures do not frighten it! It will be ideal for sports or surveillance cameras. What's more, the card offers read speeds of up to 100MB/s and write speeds of up to 40MB/s. You will also find an SD adapter included.

A card for special tasks

The Samsung Pro Endurance memory card will surprise you with its durability. It can work almost continuously, allowing you to record video footage uninterrupted. This makes it ideal for surveillance cameras, sports cameras and car video recorders, among others. The 32GB capacity is enough to store up to 17,520 hours of video!

Impressive speed

Choose a memory card that won't let you down. Samsung Pro Endurance optimizes the processing of even extremely large video files. It features a UHS-I interface and U1, V10 and Class 10 speed class, and lets you enjoy write speeds of up to 40MB/s and read speeds of up to 100MB/s. So you can record everything you want in FHD and 4K resolution without any trouble.

### Built to work in harsh environments

Don't worry about the security of your data. The Pro Endurance memory card is not only extremely durable, but also extremely tough. It will easily cope even in very demanding conditions. It has been protected against water, drops, magnetic fields, x-rays and wear and tear. It can also work in temperatures from -25°C to 85°C without any problems.
