

## Camera Akaso Brave 8

Camera Akaso Brave 8

Ref: 0810082449396

### Akaso Brave 8 sports camera

Keep the beautiful moments for longer - equip yourself with the Akaso Brave 8 sports camera and capture dynamic action in excellent 4K 60FPS quality. The device is equipped with an improved 6-axis gyroscope and provides effective stabilization, plus it has two displays, a 1/2" CMOS sensor and takes 48MP photos. You can fearlessly submerge the camera to a depth of 10m, and the case, available for sale separately, allows you to go as deep as 60m. Also a perk is 8K Time Lapse, 16x Slow Motion, digital zoom and remote control capability.

### Dynamic shots in the best quality

The Akaso Brave 8 sports camera uses an enhanced 6-axis gyroscope, which provides excellent stabilization for even the most dynamic shots. So you can record your ski runs and enjoy superb 4K 60FPS video quality and 48MP stills. There's also a 5x digital zoom and many interesting modes at your disposal.

### Convenient operation

The device is distinguished by its carefully thought-out design, which translates into high user comfort and intuitive operation in all conditions. There are two displays at your disposal: a touchscreen, 2" rear screen, and a 1.22" front screen. This allows you to have full control over your shots and create even more interesting frames. The included remote control and app are also an advantage - they allow convenient remote operation.

### Robust design

Do you like extreme sports and excel in difficult conditions? The Akaso Brave 8 sports camera will match you! Thanks to its robust construction and the use of high-quality materials, the device is resistant to mechanical damage, moreover, you can immerse it at a depth of 10 meters without fear. That's not all - the case, available for sale separately, will allow you to descend with the camera to a depth of up to 60 m.

### No limits

The Akaso Brave 8 sports camera offers a number of interesting modes that, combined with your creativity, will guarantee amazing results. You can use Slow Motion, Time Lapse or Video+Phone, as well as Car mode and Loop video, plus the Brave 8 supports voice commands. There are also several shooting modes to choose from - they allow you to take photos in a series, for example, and AI face metering translates into better exposure.
