Wireless charging car holder Acefast D17, 15W (black)

Ref: 6974316281856

Wireless charging car holder Acefast D17, 15W (black)

Conveniently charge your phone while on the go and keep it within easy reach. The Acefast D17 car mount is straightforward to use and comes equipped with a wireless charger with a power output of up to 15W. Thanks to its well-thought-out design, this product ensures stability and safety for your smartphone, even on bumpy roads. The D17 model is compatible with phones with a screen size of 4.5-7.2 inches (width 60-90 mm).

#### Efficient Charging

Planning a long journey? Your phone can be fully charged before you even reach your destination! The D17 mount has a built-in wireless charger that provides power at levels of 15W / 10W / 7.5W / 5W. Furthermore, this device ensures not only fast but also safe charging. It is equipped with reliable protection against overcurrent, overheating, short-circuiting, and more.

#### Top-Quality Construction

High-quality materials like aluminum alloy, ABS, and PC are used to make this mount. Thanks to its thoughtful design, the accessory automatically adjusts to the size of your smartphone, providing the necessary stability during your drive—no need to worry about your device falling out or getting damaged. To release your phone, simply press the appropriate button. The D17 model does not obstruct your field of view and can be easily rotated to either a portrait or landscape orientation. Additionally, silicone pads protect your phone

from scratches while it's in the mount.
