

Portable Label Printer Niimbot B21 (Black)

Portable Label Printer Niimbot B21 (Black)

Ref: 6972842742612

Niimbot B21 portable label printer (black)

The Niimbot B21 portable label printer will work well in the store, at home or at work. It requires no ink and allows you to print several labels per second. It is equipped with a 1200 mAh battery, which translates into a long working time. Operation of the device is facilitated by an app, and Bluetooth 4.0 is responsible for a fast and stable connection. In addition, you will find a roll in the kit, which is enough to print 230 labels.

Useful for everyday use

The Niimbot thermal printer will find its use in various situations. You will use it at home to label spices or food containers. The B21 will also prove useful in the store for labeling products with EAN codes, printing prices and best-before dates, or for creating QR codes.

Dedicated app

To start using the printer, download the dedicated Niimbot app - it is compatible with Android and iOS. From it you can design labels, customize the font, amount of content, etc. It allows you to print barcodes, QR codes, Excel table or time and date. It also supports serial printing, scan or emoticons and voice input. The possibilities are almost endless!

User-friendly

Niimbot B21 is a thermal printer, which means that no ink is required for its operation. It comes with a roll of labels, which is enough to print 230 pieces. In addition, the product supports regular thermal paper, for example, that for a cash register or payment terminal (you just need to change the type of paper via the app). The B21 is also equipped with a 1200 mAh lithium battery, and charging it will be facilitated by the included USB-A to USB-C cable.
