Tronsmart T7 Bluetooth Wireless Speaker (black)

From now on, music can accompany you at all times. The Tronsmart T7 wireless speaker uses SoundPulse Audio technology to deliver balanced and defined sound, and the IPX7 protection rating allows you to take the device on any adventure. A dedicated app allows you to personalize the sound, and with handy buttons you can make phone calls, manage your music player and more! The device supports Bluetooth 5.3, which guarantees a stable connection at a distance of up to 18 meters. In addition, LED backlighting will create a unique atmosphere. One charge provides up to 12 hours of use.

Sound that fills the space

Are you a true music lover and care about excellent sound quality? Tronsmart's proposal will certainly meet your expectations! The T7 speaker uses advanced SoundPulse technology, based on a patented algorithm, which ensures balance, richness of detail and clarity of sound. The juxtaposition of two tweeters and one woofer effectively generates a three-dimensional sound, so the music will surround you from all sides. Now every song will gain in quality, and you will get the impression as if you were listening to a live performance of your favorite performers.

Always ready for action

Let nothing stop you anymore. The T7 speaker features IPX7 water resistance, so you can enjoy your favorite music in any conditions -

even during a picnic on the beach or in the shower. In addition, it offers original backlighting. Get visually enthralled with 4 striking LED modes and discover new dimensions of sound with Tronsmart, your key to amazing musical experiences!

Take control with the app

Connect to your speaker with the Tronsmart app and gain full control over the sound. Personalize the sound by adjusting different EQ modes such as SoundPulse, Deep Bass or Classical, and control the LED lighting effects. With T7, every party and music gathering will become a real show!

Ability to connect 2 speakers

Want to completely fill your space with stereo sound? The T7 speaker will make your dream come true with True Wireless Stereo Pairing. It's simple - just pair two units of T7 speakers and you'll experience amazing sound quality. Overpowering bass, crystal clear highs and deep lows will take you on a musical journey you won't forget!

For your comfort

The T7 speaker was designed with your convenience in mind. Among other things, the practical buttons allow you to smoothly scroll through songs, answer, end or reject incoming calls, and launch the voice assistant. The dial allows you to fine-tune the sound level, and by turning it counterclockwise, you can quickly and easily turn down the music. The device supports a stable Bluetooth 5.3 connection over a distance of up to 18 meters, and with a TF card slot, you can also enjoy your favorite songs directly from the card. In addition, an auto shut-off function after 10 minutes of inactivity saves battery power for longer playback time.

Music without limits

The T7 speaker is an extremely durable music companion. With a 700 mAh battery, you can enjoy music for 12 hours (when using the LED backlight) or 7 hours (when the backlight is off). That's long enough to provide audio entertainment for an entire picnic, weekend getaway or long trip. Charging the device takes about 3 hours. A color indicator will let you know its status.
