

Smart Switch WiFi Sonoff T0 EU TX (2-channel)

Smart Switch WiFi Sonoff T0 EU TX (2-channel)

Ref: 6920075725513

Smart switch

Sonoff TX is a touch and intelligent light switch. It can be operated by means of an application via WiFi network or classic, by means of touch. You can switch on the light in the selected room in the house, regardless of where you are. Made of high quality materials, such as heat-resistant ABS and tempered glass, it provides safety and fits perfectly into any room. Gentle backlighting of the switch, subtly emphasizes its design and makes it visible at night.

Control for all household members

With the help of the application, you can easily share your lighting control with other users.

Service

Users can remotely operate connected devices via the free eWeLink application available on iOS and Android platforms. Thanks to the network connection, the synchronization of the device status is immediate, so that the app always displays current data. This allows you to keep full control over the excessive power consumption in your home.

Smart control

You can set your own time schedules to automatically turn on/off your devices at or after a certain time.

Mobile control

Thanks to the ability to control the lighting with the application, you can easily switch on or off the light in your home while you are away. The application is very easy to use, allows you to select a specific switch. You no longer have to worry about the light left on.
