

## Waterproof portable solar battery charger BigBlue BET111 150

Ref: 6975183210116

Waterproof portable solar battery charger BigBlue BET111 15000mAh

BigBlue BET111 waterproof portable solar charger with powerbank

Looking for a versatile powerbank that won't let you down no matter the situation? The BigBlue BET111 is the perfect choice! The product has a capacity of 15,000mAh and allows you to charge 2 devices at the same time. You can charge it not only with a micro USB cable, but also using solar energy, thanks to the built-in solar panel. The BET111 charger is also IPX4 waterproof.

High capacity

Don't worry about your devices running out of power when you least expect it. The capacity of the BET111 powerbank is as much as 15,000mAh, which means that you can use it to charge an iPhone 8 about 5 times, an iPhone 7 about 4.8 times, and a Samsung Galaxy S8 about 3.5 times. Moreover, the product is equipped with 2 USB ports, so you can connect up to 2 devices to it at the same time.

Handy while travelling

The BET111 powerbank can accompany you almost anywhere. Lightweight and compact, it won't take up too much space or become a burden. You can also attach it to your backpack. It also has a built in LED flashlight for when you're camping. The device is also distinguished by impressive durability and water resistance IPX4 - even extremely demanding conditions will not frighten it!

Various charging options

You can charge the powerbank in several ways. The device has been equipped with a micro USB port, which allows you, for example, to connect it to your charger or laptop using the included cable. Are you in a place where there is virtually no access to electricity? No problem! The BET111 has a built-in high-efficiency solar panel that lets you charge it with solar power. Note: we recommend charging the powerbank with a USB cable if possible.
