Ref: 6921002643207

Car Mount for Tablet and Phone McDodo CM-4320 for headrest

McDodo CM-4320 car mount for tabletu/telephone for headrest

As a rear passenger in a car, have you ever wanted to have your phone or tablet holder so you can comfortably watch movies or play games? The McDodo car mount for the headrest can make it possible for you! This convenient gadget is compatible with 4.7-12.9" devices, so you can easily mount both your phone and tablet on it. What's more, its installation won't give you any trouble, as it is very quick and easy.

Multiple uses

The McDodo car mount is designed with multiple uses in mind. You can easily use it to watch movies, browse videos or play games. It is an ideal gadget for rear-seat passengers. What's more, it has also been equipped with special charging holes on both ends, so you can freely renew the energy of your devices at any time.

Comfort of use

The McDodo gadget is not only functional and practical, it is also extremely comfortable to use. Thanks to its stable design with aluminum alloy brace, it guarantees direct and easy installation without removing the headrest. The unique design of the telescopic bracket allows you to adjust the distance from 57 mm to 230 mm, which allows you to adjust the viewing angle to individual needs. An additional advantage is the ability to rotate the bracket 360 degrees, which significantly increases the convenience of use.

Great compatibility

The Mcdodo car mount adapts to your needs. Designed with comfort in mind, it is compatible with a wide range of devices ranging in size from 4.7 to 12.9 inches. The adjustable handle, with a variable length from 132 to 178 mm, guarantees a seamless adaptation of the holder to the specifics of your vehicle. Its versatility makes it fit 99% of cars on the market. This makes Mcdodo synonymous with convenience and functionality.
