

## Water Fountain for pets Rojeco Wireless 2,5L

Ref: 6975116293520

Water Fountain for pets Rojeco Wireless 2,5L

Rojeco Wireless 2.5L smart fountain/drinker for dog and cat

Provide your beloved pet with constant access to fresh water. Rojeco's 2.5L smart drinker encourages dogs and cats to hydrate themselves and uses an effective 4-layer filtration system. A practical indicator will let you know when the tank needs to be refilled. The device is equipped with a low-pressure pump, which works extremely quietly - the level of noise generated does not exceed 30 dB. Thanks to the design consisting of 2 bowls, it will be perfect for homes with more than one animal.

### Large capacity

Thanks to the fact that the capacity of Rojeco drinker is as much as 2.5 l, you do not have to worry about the need for frequent refilling of water. The transparent window of the device allows you to conveniently check the status of the tank, and the indicator provides information about its too low level.

### Reliable access to water

The Rojeco device stores 75 ml of water, which it provides in case of power failure. This ensures that your pet will be able to stay hydrated in any situation.

### 4-layer filtration system

You can rest assured that the Rojeco waterer will always provide your pet with fresh and clean water. The device uses a 4-layer filtration system, which consists of two layers of non-woven fabric, activated carbon and ion-exchange resin. As a result, it reliably eliminates hair, dust, food residue, chlorine residue and other impurities.

For the care of your pet

Are you worried that your four-legged friend is not drinking enough water? The Rojeco drinker will help solve this problem! It offers 2 bowls with charming spouts in the shape of goldfish, from which water flows around the clock. The solution used is sure to attract the cats' attention. In addition, the width of the bowls allows convenient watering without the risk of wetting the pet's delicate whiskers.

Quiet operation

Deciding on a Rojeco drinker, you do not have to give up silence. The noise generated by the device does not exceed 30 dB. This allows you to relax comfortably at home, knowing that your pet can enjoy access to clean water at any time.

Safe Work

The Rojeco smart waterer utilizes a wired induction base that delivers only 5V to the fountain itself, increasing user safety.

Hassle-free maintenance

Disassembling the drinker will not cause you any difficulties. All parts of the device except the base can be washed under running water without any problems. Thus, keeping it clean will not be a challenge for you.
