

## Rojeco 2L Automatic Pet Feeder Button Version

Rojeco 2L Automatic Pet Feeder Button Version

Ref: 6975116293599

Rojeco Intelligent 2L Pet Feeder Button Version

Opt for the solution offered by Rojeco to take care of your pet's proper nutrition. The smart pet food dispenser features a 2-liter container that can provide food for as much as 10 days. Using dedicated buttons, you will schedule feeding times and number of meals for the day. The device prevents food from getting stuck, and practical indicators provide important information about its operation. You can power it in 2 ways, and you won't have any difficulties cleaning it. Thanks to its refined design, it is pet-friendly.

2 L capacity

The Rojeco smart food dispenser offers a capacity of up to 2 liters, so it is able to provide food for cats or small dogs for a period of 10 days. So you can go on vacation without worry, knowing that your beloved pet is also well fed in your absence.

Meal planning

Plan a feeding schedule tailored to your pet's needs. Rojeco's smart dispenser provides your pet with 1 to 6 meals during one day, which can consist of up to 16 servings of food.

2 ways to power it

You can power the device in 2 ways - using the included USB cable or equipping it with 4 AA batteries (to be purchased separately). In

the event of a power failure, the dispenser automatically switches to emergency power mode so that your four-legged friend can eat meals at regular times.

#### Practical lock and convenient operation

The practical locking mechanism eliminates the risk of your pet accidentally opening the lid. To refill the food, use the dedicated switch. With this solution, you can be sure that your pet follows a healthy diet and does not snack between meals. In addition, practical buttons and an easy-to-read display make it easy to operate.

#### With your pet's safety in mind

The food bowl is made of 304 stainless steel and food-grade material, making it resistant to grease buildup and resistant to corrosion, yet safe for your pet. Keeping it clean will not be a problem for you.

#### User-friendly

The individual components of the dispenser can be conveniently disassembled and washed under running water to effectively eliminate any bacteria. The transparent food container allows you to check the remaining amount of food. This makes it easy to check when a refill is needed. In addition, the device is equipped with light indicators that provide important information on low battery, low feed and possible food blockage.

#### Attention to detail

The device uses a system that prevents food from getting stuck and automatically changes the direction of rotation when food gets stuck. The solution used eliminates the risk of blockages and ensures constant access to the food. In addition, an innovative system consisting of soft silicone paddles and rotor-driven blades minimizes the risk of jamming of the mechanism. The dispenser is also equipped with a feed opening, and the increased angle of inclination allows easy release of grains up to 16 mm from the container. As a result, the device guarantees regular feeding, which translates into comfort and health for your pet.
