

## Rojeco 3L Automatic Pet Feeder WiFi with Camera

Ref: 6975116292936

Rojeco 3L Automatic Pet Feeder WiFi with Camera

### Rojeco 3L Pet Feeder WiFi with camera

The Rojeco smart pet food dispenser uses Wi-Fi, comes with a 3L reservoir and a 720p camera with a 115° viewing range that allows you to record your pet and take photos. So you can keep an eye on your furry friend and interact with it even when you're away from home. With the built-in speaker and microphone, you can give your pet commands and record a voice message of up to 10 seconds to encourage him to eat at mealtime. From the app, you will create an editable eating plan. You'll power the device in 2 ways, and it's easy to use and maintain.

### 3-liter feeding tank

The 3-liter tank is capable of storing as much as 2.5 kg of food. This is enough to provide an adult cat with meals for up to 25 days. Thanks to the transparent design, you can conveniently check the remaining food level without having to remove the lid. The device is compatible with grains whose dimensions range from 3 to 13 mm.

### Remote control

Manage your pet's meals from anywhere with the dedicated app. It is possible to create a feeding schedule, consisting of up to 8 meals per day with 1 to 20 servings (10±2 g per serving). With Rojeco, you can be sure that your pet won't go hungry, even when you come home later than usual for an unexpected reason.

#### Personalized voice recording

The built-in microphone and speaker allow you to record a voice message of up to 10 seconds in length, which will play at mealtime. Using the dedicated app, you can also communicate with your pet from anywhere to encourage him to eat or give him a command.

#### Keep an eye on your pet

The built-in camera provides 720p resolution and its recording range reaches 115°. You can use it to create photos and videos to share your pet's favorite moments with family and friends.

#### Reliable in any situation

You can power the dispenser using the included 5V adapter or equip it with 3 D batteries (to be purchased separately). In the event of a power failure, it will automatically switch to battery power, providing your pet with regular meals regardless of external conditions. In addition, the individual components of the dispenser can be easily disassembled and then washed under running water. Thus, your pet will always enjoy hygienic conditions during meals.
