Vernier Caliper 150mm Deli Tools EDL91150 (silver)

Ref: 6973107487071

Deli professional electronic calliper EDL91150

The Deli EDL91150 electronic caliper is designed for the measuring both internal and external dimensions. The device has an easy to read LCD screen that displays results with extreme accuracy. Its error range does not exceed 0.03 mm.

Functionality first

The calliper is designed to display measurements in different units. Simply press one of the three buttons to change the display from metric to imperial! The other two are responsible for switching the device on/off and resetting the results. With this calliper you have everything you need!

Robust design

The instrument has been made from high quality carbon steel, which ensures a long service life. Thanks to this, the calliper will perfectly fulfil its role in the household or garage. It can be used for metalworking, woodworking and jewellery industry. With Deli EDL91150 you will gain quality that will become your new standard!

Comfort of use

The applied solutions support the comfort of use while obtaining measurements. The calliper has a knob with which you can tighten or

loosen the measuring part of the instrument. In this way you can easily and comfortably store the collected measurement data. All in the name of convenience and functionality!
