Mechanical gaming keyboard Motospeed K87S RGB (white)

### Motospeed K87S RGB Mechanical Keyboard

The Motospeed K87S keyboard was created with the needs of gamers in mind. Thanks to its ergonomic design, it enables extremely comfortable and relaxed use. The red switches provide unparalleled smoothness of operation and will prove useful during both gaming and typing. In addition, colorful backlighting gives the device a gaming character.

### Reliable performance

Enjoy dynamic gameplay and break records - Motospeed gives you the confidence that every keystroke will be reliably recorded. The K87S supports N-Key rollover, so you can perform even the most complex key combinations with confidence. You can also lock the Windows key to avoid accidentally pressing it while gaming.

### Professionalism and simplicity

The backlit keyboard not only looks great, but also makes working at your computer easier. The K87S is designed especially for gamers and office workers. You can also customize its appearance to your liking! Motospeed gives you a choice of 14 backlight modes - just press FN+INS to set them.

### Impressive key durability

With Motospeed, you can work or play as long as you want - the K87S keyboard will not let you down! It has a keycap life of up to 50 million clicks. This solid and durable device will serve you well for a long time. And it looks really good - the original transparent cover provides even more interesting RGB effects.

For gamers and employee comfort

The durable OUTEMU Blue switches provide unparalleled smoothness and speed - no matter if you're playing your favorite game or working. Plus, the accessory features 12 function keys, so you don't have to search for settings on your computer to turn on the backlight or open your email. The buttons of the K87S are pleasant to the touch and easily yield to your fingers.
