

## Motorcycle Helmet Chin Telesin + J-Hook Mount for sports cam

Motorcycle Helmet Chin Telesin + J-Hook Mount for sports cameras (GP-HBM-MT7)

Ref: 6972860174563

The Telesin GP-HBM-MT7 helmet mount for sports cameras

The Telesin anti-slip helmet mount is designed for sports cameras and is distinguished by its high compatibility. It provides a successful combination of light weight and high durability. The accessory is easy to install and provides your devices with the necessary stability. You do not have to worry about shocks or the risk of falling of the camera.

Wide compatibility

The mount is compatible with most sports cameras from popular brands. With its help you can conveniently and safely mount on your helmet for example GoPro Hero, Xiaomi Yi, Campark or DJI Osmo Action. No matter what equipment you use, new recording possibilities are at your fingertips!

Solidity and reliability

The product is made of excellent quality materials that ensure its durability and your camera's safety. PC plastic is resistant to corrosion, mechanical damage and high and low temperatures. On the other hand, food-grade silicone was used to create non-slip pads, which ensures a perfect fit and unparalleled stability.

Don't worry about the safety of your camera

Mount your camera on your helmet and record breathtaking footage while speeding down a hill or speeding down a mountain road. The mount is designed for maximum stability and security. Installation is easy with the heavy-duty polyester webbing.
