Ref: 6921002609005

Cable Mcdodo CA-900 USB-C to 3.5mm AUX mini jack, 1.8m (black)

Mcdodo CA-0900 USB-C to mini jack 3.5mm AUX cable, 1.8m (black)

The Mcdodo cable provides high quality sound, and thanks to its USB-C and 3.5mm ports, you will connect it to various types of devices. On the other hand, solid workmanship guarantees the durability of the product and prevents interference and tangling of the cable.

Wide compatibility

The product works with smartphones, tablets, laptops from Apple, Huawei, Honor, Xiaomi, or Samsung, among others. In addition, using the 3.5 mm port, you can successfully connect it to a speaker, wireless headphones or AUX output in the car. As a result, you can comfortably use navigation or listen to music.

High quality sound

Mcdodo CA-0900 provides HiFi sound, allowing you to enjoy the richness of details and new quality of your favorite songs. What's more, the use of pure copper prevents interference.

Rugged construction

The Mcdodo cable is designed for long-term use. The high-grade aluminum alloy finish protects against scratches and corrosion, while the use of nylon translates into resistance to damage to the cable. The product has also passed a number of durability tests. You can also extend the cable to a maximum of 1.8 meters, and thanks to the thoughtful design, it will not get tangled.
