## Cable USB-A to Lightning Mcdodo CA-5000, 1,2m (black)

Cable USB-A to Lightning Mcdodo CA-5000, 1,2m (black)

Ref: 6921002650007

Mcdodo CA-5000 USB-A to Lightning cable, 1.2m (black)

Introducing the Mcdodo CA-5000 cable from the Comet series, where innovation meets elegant design. This 1.2-meter cable, was developed with Apple devices in mind. It offers a charging current of 3A, providing fast charging. Data synchronization, robust construction and a practical digital display are additional advantages of the cable.

Practical display

A unique feature of the Mcdodo CA-5000 cable is the built-in digital display, which tells you the current charge level of your iPhone. This state-of-the-art solution allows you to monitor the battery status in real time, adding convenience and control to the whole process.

Fast charging

Enjoy the ability to quickly charge your device with a maximum current of 3A. The Mcdodo CA-5000 cable ensures not only speed, but also charging stability, so your iPhone will be ready to use in no time.

Rugged construction

The sturdy aluminum alloy housing and strong nylon braided cable provide the Mcdodo CA-5000 cable with unparalleled durability. This design not only protects the cable from mechanical damage, but also provides protection from bending, extending its life.

Synchronization and charging at the same time
This versatile cable offers not only charging, but also data synchronization, allowing you to easily and quickly transfer photos, music or documents between your iPhone and computer. The efficiency and reliability of this process are guaranteed thanks to the high-quality workmanship of the Mcdodo CA-5000 cable.
