Car Magnetic Wireless Charger Mcdodo CH-2340 (clear)

Car Magnetic Wireless Charger Mcdodo CH-2340 (clear)

Now you can conveniently charge your phone while traveling and keep it within reach when driving. The Mcdodo CH-2340 in-car wireless charger offers a power output of up to 15W and is equipped with 19 high-strength magnets, providing stability and safety for your smartphone placed on it. The product is also highly durable and features a stylish design, with transparent tempered glass elements and LED lighting that indicates the charging status, giving it an original and modern character.

#### Designed for Your Smartphone

The charger is compatible with iPhones from the 12-14 series and allows you to charge them with a power output of up to 15W / 10W / 7.5W / 5W. The 19 high-quality magnets will ensure stability for your smartphone - even speed bumps or sudden stops won't be a problem. You don't have to worry about your device falling and getting damaged! Moreover, the built-in ball joint allows you to freely adjust the phone's position - you can easily set it vertically or horizontally. Note: To achieve the best charging results, it is recommended to use compatible magnetic cases.

#### Enhanced Construction

The charger is made of high-quality aluminum alloy, providing durability and resistance to damage. The CH-2340 model is also protected against overvoltage, short-circuits, overheating, and more. The high-density pure copper coil ensures higher charging efficiency, and the

hidden non-slip strip additionally protects the phone from falling. Additionally, a specially designed clip with a foot allows for easy and stable mounting of the charger on the air vent grille, and additional openings at the back ensure better heat dissipation.
