Sonic toothbrush Remax GH-07 White

Ref: 6954851255307

Sonic toothbrush Remax GH-07 White

Take care of proper oral hygiene with the Remax GH-07. The sonic toothbrush generates up to 31,000 vibrations per minute to effectively remove food debris and plaque. What's more, it lets you choose from 4 modes and has a timer that keeps an eye on the brushing time for you. Moreover, it works on a single charge for up to 30 days, and you can renew its energy with the included charging base. The kit also includes a spare tip and travel case.

Healthy smile

Delight in a snow-white smile every day. The Remax GH-07 works at a frequency of 31,000 vibrations per minute to thoroughly remove food debris and plaque. What's more, the dense bristles of the toothbrush reach hard-to-reach places while not irritating your gums.

4 cleaning modes

Adjust the work of the toothbrush to your own needs. There are 4 modes at your disposal, so everyone can choose the right one for themselves. Gentle will work well for sensitive teeth and gums, while choose Polish mode for polishing. Whiten will allow you to whiten your teeth, while Clean will be suitable for everyday use.

Built-in timer

You don't have to keep track of brushing time anymore - Remax GH-07 will do it for you. The sonic toothbrush is equipped with a timer that will remind you every 30 seconds to change the cleaned area. In addition, it will automatically turn off after 2 minutes.

Long working time, convenient charging

Don't worry about charging your toothbrush too often. Remax GH-07 works on a single charge for about 30 days (if you use it twice a day and each brushing lasts 2 minutes). On the other hand, the included charging base and USB cable will allow you to renew the energy of the toothbrush - after about 8 h it will be ready for further use.
