Puluz photo belt with selfie stick

Create even better videos while running, biking or climbing mountains. The Puluz selfie stick belt will allow you to gain an unusual perspective and take spectacular shots without having to hold the camera in your hands. The selfie stick is equipped with a universal 1/4" thread, so you can easily attach a number of popular sports cameras or a smartphone mount to it. You can also freely adjust the length of the selfie stick in the range of 28-111 cm. The belt is made of high-quality materials that stand out for their durability, and it also provides the necessary stability - you don't have to worry that the selfie stick will fall down and the camera will be damaged.
