Superfire F5 Flashlight

The handy Superfire F5 flashlight impresses with its vast capabilities. Thanks to its variable focal length, it will work in almost any situation - it can emit both focused and diffused light. It shines with a power of up to 10 W, and its range reaches up to 236 m. Easy to use and offering 5 modes of operation, this device is also extremely lightweight - it weighs only 100 g. Using its amazing functionality therefore turns out to be extremely comfortable.

Lights exceptionally bright

Superfire F5 can generate light with a brightness of up to 1100 lm. Thanks to its high power and long range, it will almost always provide you with optimal illumination. The device is also equipped with ultra-clear optical glass. All of this adds up to its excellent performance and ensures that you can enjoy bright light regardless of the conditions.

Discover the advantages of the variable focal length

The device's variable focal length allows you to tailor its performance to your needs in certain situations. With it, you can get diffused light, which is great at short range, or focused light - ideal at further distances. Its adjustment is extremely intuitive - using the diverse capabilities of the flashlight has never been so easy!

Choose the light mode suitable for you

The device can operate in 5 modes. It generates light with high, medium or low intensity. You also have the option to choose SOS or flash mode. Superfire F5 will therefore be perfect for many situations - including when you need help! Using it, you will not only provide yourself with perfectly adapted lighting for the conditions, but also give an alarm signal or temporarily blind a possible attacker. This versatile tool will certainly come in handy for you!

Water does not frighten it

An additional advantage of the flashlight is its water resistance. Superfire F5 will not be harmed by rain, moisture, accidental splashing, or even brief immersion in water. So you can use it virtually anytime and anywhere without worry. This unique flashlight will certainly not let you down. You don't have to worry that contact with water will prove harmful to it!

You will comfortably use it in many situations

The flashlight is extremely lightweight and handy. It fits perfectly in your hand and does not slip out of it. Operation of the device is also fabulously easy - to turn it on, off or change the mode, just press the convenient button located on the bottom. Such great comfort and ease of use make you successfully use the F5 in many situations - on a camping trip, during an overnight hike, at work, while fishing, as well as in many everyday applications.
