Digital Anemometer Habotest HT625A

Ref: 5907489606769

Digital Anemometer Habotest HT625A

Habotest HT625A anemometer
HT625A is a functional anemometer with high sensitivity. It is equipped with an 8-blade rotor and HD color display. It is powered by 3 AAA 1.5V batteries. It allows measurements in different units. Lightweight, handy and portable - it will surprise you with its simple and convenient operation.

Precise measurement of various parameters
This multifunctional anemometer accurately measures air flow velocity and volume, as well as air channel area. It is distinguished by its high sensitivity. It also allows you to make average measurements. You can access the various functions and settings by pressing certain buttons.

Selectable unit
Habotest meets the needs of users around the world. The ability to change the unit of measurement will allow you to tailor the performance of the device to your needs and habits. Options include m/s, km/h, miles/h, ft/s, and even knots.

Practical, portable, convenient to use
Anemometer is equipped with a clear, color HD display. It provides convenient access to the most important information related to the
