Multifunction flashlight Superfire G16-S, 800lm, USB-C

Superfire G16-S multifunction flashlight

Multifunctional flashlight by Superfire will come in handy in various situations. You can use it in the workshop, on the campsite, etc. It has a 360 ° rotation function and a magnetic base for charging. Thanks to the durable construction and high quality materials it works well in harsh conditions.

Monitor charging status

With smart indicators, you can monitor the charge level of your flashlight. The green color of the indicator will let you know when the battery is used up and fully charged. So you can check its status at any time.

Convenient adjustment and use

You can adjust the flashlight 360°, allowing you to adjust the angle of the light to suit your needs. In addition, the accessory has a function of intelligent memory of settings. You can easily adjust the brightness of the lamp. All you have to do is to hold down the on/off button longer. You can choose white/red front light or side light.

Charging base

You can charge the lamp quickly and easily using the magnetic charging base and USB-C cable (both included). The charging time is just less than 5 hours. Thanks to the capacious battery, you can use the front light for up to 4 hours and the side light for up to 4.5 hours.
