

Intelligent 2-chamber food dispenser PetWant F7

Intelligent 2-chamber food dispenser PetWant F7

Ref: 5907489608657

PetWant F7 intelligent 2-chamber food dispenser

Ensure fresh food for your pet, even when you're not at home. The PetWant F7 smart food dispenser allows you to serve both dry and semi-moist food, and the ice bag keeps food fresh for a long time. Built-in timer allows you to schedule feeding times over a 48 hour period - just set the interval and the dispenser lid will open when the time is up.

Plan your pet's dinner

Lockable lids, a bag of ice and a built-in timer mean you can plan your cat's delicious meal ahead of time. Just fill the compartments before you leave home and set the time, and the dispenser will serve the food at the scheduled time. In this way you will take care of regular feeding of your cat and the food served will always be fresh and attractive for your pet.

Two compartments for a balanced diet

The PetWant F7 food dispenser is equipped with two separate compartments with a capacity of 150 g each. The containers are suitable for both dry and semi-moist food, allowing you to maintain a balanced diet. The lockable lids ensure that your pet's food does not dry out or weather. Each compartment allows for independent meal timing.

Simple handling and easy cleaning

The food containers can be quickly and easily removed from the dispenser and cleaned under running water. You can also wash them in the dishwasher without any worries, which makes using the dispenser convenient and makes everyday life easier. PetWant F7 will work well for owners of cats, but also small and medium dogs. The dispenser is equipped with an AA battery, which allows for about 6 months of operation. Battery is not included in the kit.
