

Deerma Electric 17 L 2200W Kettle SH30W

Deerma Electric 17 L 2200W Kettle SH30W

Ref: 6955578038112

Deerma SH30W electric kettle

Start your day with a delicious cup of tea or a stimulating cup of coffee. The Deerma SH30W electric kettle features up to 2200W of power to boil water quickly. Its capacity is 1.7l. Transparent casing and blue LED light give the device a unique design and allow you to conveniently check the water level inside. What is more, the product is made of health-friendly materials, is very easy to maintain and ensures safe use.

Blue LED backlight

The device is equipped with a transparent casing, which was created from high quality borosilicate glass. This makes it very durable and resistant to damage - it will serve you well for a long time. The product also has a blue LED backlight, which gives it a unique and stylish character. All this also means that you can conveniently check the water level in the kettle at any time. The SH30W is the perfect combination of functionality and modern, stunning design!

Fast boiling water

No longer do you have to wait endlessly for water to boil so you can enjoy an aromatic cup of coffee. The SH30W kettle is powerful at

2200W and has a capacity of 1.7l. That means you can make up to 8 glasses of hot water in no time at all! That's why it's perfect for large families. No one will have to wait for their cup of coffee or tea!

Carefully selected materials

Only high-grade materials such as 304 stainless steel and borosilicate glass were used to make the kettle. This makes the device resistant to high temperatures and extremely durable. It is also safe to use in contact with food. Cleaning the kettle won't be a problem either. Its lid opens by 110° and the opening is large enough that you can easily put your hand into it and thoroughly wash the device.

Safety of use

While designing the kettle, care has also been taken to ensure that it can provide maximum safety of use. Built-in sensor and technology ensure that if the tank runs out of water, the device will automatically turn off. So you do not have to worry about damaging it. Bet on proven solutions and choose a kettle that will serve you well for a long time!
