Ref: 6926170074655

Computer Fan Set ARGB Darkflash DR12 Pro 3in1 120x120 (black)

RGB Illuminated Fan Set 3in1 Darkflash DR12 Pro

How to easily provide your computer with effective cooling and unique style? Just use the 120 mm DR12 Pro fans! The customisable, colourful LED backlighting will make your hardware look really fantastic. Easy to install and compatible with Asus Aura Sync, they are sure to meet the expectations of even the most demanding users. The set includes 3 fans and a practical remote control that allows convenient remote control of your devices.

Efficient cooling - silent operation

Fans of 120 mm size perfectly fit most computers. Their installation will not cause you any problems. And you don't have to worry about annoying noise. Despite the speed of up to 1200 rpm, the fans are extremely quiet - their noise level does not exceed 16 dB. This is possible thanks to the rubber pads and the specially designed hydraulic bearing. Darkflash ensures optimum cooling and unparalleled user comfort.

Gaming character

LED backlighting gives your PC an original gaming character. The dual RGB rings guarantee an amazing effect and can perfectly complement your hardware. Moreover, the fan design has been carefully thought out, so that the light generated impresses with its brightness and vivid colors.

Remote control - play with colors

The supplied wireless remote control lets you control the fans remotely. You can use it to turn the fans on and off, adjust the colors, and choose from available light modes such as Star night, Rainbow, Lightning and Breathing. Discover new possibilities, enjoy amazing lighting effects and make your computer an eye-catcher!
