

## Computer case Darkflash Aquarius Acrylic

Computer case Darkflash Aquarius Acrylic

Ref: 4710343790723

### Darkflash Aquarius Acrylic computer case

Build yourself the perfect computer for work or gaming. The Darkflash Aquarius Acrylic case will allow you to install the components of your choice without any problems and offers space for up to 8 fans to avoid overheating. You'll also have several key ports at your disposal, including USB 3.0. The product also stands out for its modern, original design - the transparent panels will make it easier for you to achieve fantastic visual effects, for example, with ARGB fans.

### Build your dream computer

Do you want to play even the most demanding games without interference? Or maybe you need a powerful computer for work? The Aquarius Acrylic case will prove itself in almost any situation! The product is compatible with ITX, M-ATX and ATX motherboard standards, and allows you to install SSD or HDD drives. You can also install a graphics card of up to 330mm in length and a CPU cooler of up to 160 mm in height. The case also offers 7 slots for expansion cards. The possibilities are almost endless!

### Efficient cooling system

You no longer have to worry about your computer getting excessively hot. The Aquarius Acrylic case offers a specially designed internal cooling channel and allows you to install up to 8 120mm fans. It is also possible to install a 240mm water cooler on the front panel. Now you can use demanding graphics programs or play your favorite games without worry!

### Useful ports and buttons

Enjoy comfortable work at your computer. The case is equipped with several ports, for example, USB 2.0 and USB 3.0, so you can transfer the files you need in no time. This is ideal for graphic designers, photographers and more! The Aquarius Acrylic model also offers a headphone/speaker output, microphone input, as well as Reset and Power buttons. Now everything you need is at your fingertips!

### Stylish and functional

The case is distinguished by its original front panel, whose design is reminiscent of a diamond cut. It was also equipped with a side panel made of dark tempered glass. Thanks to this, you can, for example, expose components with RGB backlighting and give your computer a remarkable gaming character! The product also offers an independent hard drive enclosure. Also noteworthy is the magnetic top cover, which will protect your hardware from dust and make it easier to clean.
