Ref: 6976037360728

Smart Dimmer Switch Module ZigBee Avatto N-ZDMS01-2 TUYA

ZigBee Avatto smart light dimmer N-ZDMS01-2 TUYA

The smart light dimmer is a modern solution for people who value convenience and comfort in their daily life. With remote control via the Smart Life/Tuya Smart app, you can control your home's lighting anywhere and anytime via your phone or tablet. The controller is also compatible with Amazon Alexa and Google Home voice assistants, offers the ability to adjust the degree of lighting, as well as create schedules. Check out how convenient it is!

Adjust the brightness of the lighting

The brightness degree adjustment function allows you to fine-tune the lighting level using a percentage bar or voice commands. Such a solution will help you create the right atmosphere for your activities! An evening with a book? Or maybe a romantic dinner? A simple voice command is all it takes to brighten or dim the lighting!

Group your devices

The Avatto ZigBee smart light dimmer allows you to group several devices, so you can control the lighting in different rooms at the same time. Thanks to the "Linkage" function, the controller can work with other modules, sensors and devices in the house, allowing you to create different scenarios, such as sleep mode, work mode, dinner mode or coming home mode.

#### Create a work schedule

The controller also has a scheduling function, so you can schedule automatic lighting control according to your needs. Make the lights turn on at the same time every day, making it easier for you to wake up. The smart home will adapt to your rhythm!

#### Shared management

The "Family Share" function allows you to change permissions and allow other users to access lighting management. This way, all household members will be able to enjoy the smart home and effortlessly adjust the lights to their own preferences.

#### Easy installation

The ZigBee Avatto smart light dimmer controller is easy to install. However, you need to turn off the electric power before installation. The installation will not cause you much trouble and will not take much time.
