Cable USB-A for Lightning Green Cell GC, 120cm for iPhone, iPad, iPod, quick charging

Ref: 5907813963537

Green Cell GC PowerStream USB-A/Lightning cable

The 120 cm long USB-A/Lightning GC PowerStream cable enables up to 3.5x faster charging and seamless data transfer. It supports Apple's 2.4A fast charging standard and stands out for its unparalleled durability.

Fast charging and wide compatibility

Use the Green Cell cable to renew the energy of smartphones such as the iPhone 11, 12, 13 Pro Max, Pro, Max, Mini, XS Max, XS, X or SE. With support for Apple's 2.4A fast charging technology, 30 minutes of charging is enough for the battery level to reach 50%.

Careful craftsmanship

The braid of the GC PowerStream cable has been made from threads of durable polypropylene, which not only look elegant, but also protect it from abrasion and kinking. The length of the cable is 120 cm.
