

## Freewell K2 Versatile Magnetic Filter System

Freewell K2 Versatile Magnetic Filter System

Ref: 6972971861727

### Freewell K2 Versatile Magnetic Filter System

Bet on Freewell's proposal, try the K2 filter system and realize any creative invention. The set consists of a practical filter storage case, main stand, VND stand, VND105/CPL and VND6-9/ND32CPL filters, lens cap, back cap and four adapters (67mm, 72mm, 77mm, 82mm). You can also use other filters, including Gradient, Mist, Streak or ND, without any problems. The magnetic design provides a secure and stable mount, while allowing you to change filters quickly and smoothly during a photo or film shoot. A slot for a GND filter will also be at your disposal. Be ready for any challenge and enjoy unparalleled image quality.

### Future-proof solutions

K2 is a future-proof solution for all photography and filming enthusiasts. You no longer have to worry about choosing the right filter thread size - this versatile system is compatible with lenses up to 82mm in diameter. The kit comes with 67mm, 72mm, 77mm and 82mm adapters. It is also possible to buy 52 mm, 55 mm, 58 mm and 62 mm variants. You can also layer individual filters on top of each other for even more interesting results. In this way, Freewell provides the freedom to use a variety of filters, eliminating the need to purchase several sizes of a given filter for different lenses.

### Stunning color reproduction

Thanks to True Color technology, the K2 system guarantees the highest quality of color reproduction. The coating process of the filters

allowed minimizing the occurrence of offsets compared to other VND filters available on the market. As a result, you can be sure that your photographs and videos will reflect real colors with even greater accuracy and authenticity. From now on, you can fully focus on shooting and recording without having to do lengthy editing of your footage.

#### Let creativity take over

By opting for the K2, you will get the possibility of almost unlimited artistic expression. The system allows you to apply a variety of filters, such as Gradient, Snow Mist, Glow Mist and Streak. This will help you capture magical moments in a unique way. Start recording with ND filters and then want to use Gradient type? From now on, you can say goodbye to costly and annoying switching between systems - the K2 makes it so you can use different filters as part of one system, and adapt it to any lens with a maximum size of 82mm.

#### Efficient operation

From now on, you can conveniently adjust the light transmission rate from 1 to 9, increasing your flexibility in adjusting exposure. Also noteworthy is the hard stop so that the filter has a fixed point, after which there is no further increase in light reduction. This allows you to maintain a stable and controlled exposure. Whether you are a professional photographer, filmmaker or enthusiast, the K2 system provides reliable tools to express your creativity and achieve excellent results in any situation.

#### Hassle-free mounting

The magnetic design of the K2 system makes it quick and easy to change filters. It guarantees a secure and stable mount, preventing accidental detachment or shifting during shooting. With the integrated level, you can precisely and easily mount the filter vertically or horizontally. All you need to do is to choose the appropriate thread of the intermediate ring, then place the main base on the adapter of your choice and secure it by tightening the appropriate threads - this solution provides greater security. You no longer have to worry about the inappropriate positioning of the filter and can enjoy a professional and aesthetically pleasing result.

#### Practical accessories included

The kit includes everything you need to start your creative journey. The main base, the VND1-5/CPL and VND6-9/ND32-CPL filters, the VND base, adapters of different sizes (67 mm, 72 mm, 77 mm and 82 mm), a back cap, a lens cap for mounting on the VND1-5 or VND6-9, and a practical filter case will all provide you with full functionality and convenience.
