Diagonal Pliers 7" Deli Tools EDL2207 (yellow)

Ref: 6973107486258

Diagonal pliers Deli Tools EDL2207

Universal pliers are one of the most popular tools. Thanks to their specially shaped jaws, they have several functions. The flat end can be used for holding and crushing, and the sharp edge is good for cutting and bending. Forged from excellent quality carbon steel, they are distinguished by high strength and long life. The pliers have high frequency hardened cutting edges with 54-62HRC hardness and high cutting ability. The two-coloured ergonomic handle is made of environmentally-friendly material and lies well in the hand, thus preventing fatigue even during prolonged use.

Brand

Deli

Model

EDL2207

Size

7" (180mm)

Material

Carbon steel 54-62HRC
